下图为服务器信息界面，底部为流量信息、电源管理、系统安装 功能键。

Product Details

Registration Date:	[REDACTED]
Product/Service:	Dedicated Servers - [REDACTED]
Domain:	[REDACTED]
IP Address:	[REDACTED]
Operating System:	
Payment Method:	PayPal
First Payment Amount:	\$[REDACTED] USD
Recurring Amount:	\$[REDACTED] USD
Next Due Date:	[REDACTED]
Billing Cycle:	Monthly
Status:	Active

4、系统安装

点击 (Re)install server，选择需要安装的操作系统，输入用户名、密码等相关信息后即可自动安装。

The image shows a web interface for server management. At the top, there are three buttons: "Data traffic", "Power management", and "(Re)install server". The "(Re)install server" button is highlighted with a red box and a red arrow points to it from below. Below this is the "Client Area" section, which includes a breadcrumb trail: "Portal Home > Client Area > My Products & Services > Product Details". The main section is titled "Provision server" and contains a form with the following fields:

MAC-address	[Redacted]
IP-address	[Redacted]
Hostname	[Input field]
Installation profile	CentOS 5.8 (selected) CentOS 5.8 CentOS 6.2 Citrix XenServer 5.6
Disk layout	[Input field]
Package selection	Standard
Extras	None
Root user password	[Input field]
Repeat root user password	[Input field]
Regular user name (optional)	charlie

A red box highlights the "Installation profile" dropdown menu, which is open and shows the following options: CentOS 5.8 (selected), CentOS 5.8, CentOS 6.2, and Citrix XenServer 5.6. A red arrow points to the "Installation profile" field from the text "举例" (Example).
